The interest payment requirements shown above are based on the required principal maturity schedule and includes the accreted value portion of capital appreciation bonds in the year in which they are required to be redeemed. The schedule also assumes that the Series 2005C Bonds will be retired and replaced at their initial par value by Series 2010A Bonds, in accordance with the Indenture. These Series 2010A Bonds will be issued under a forward bond purchase contract and will have a maturity date of June 1, 2041 and an interest rate of 6.25%.

Under the terms of the Indenture, the Corporation is required to maintain certain deposits to fund debt service payments, if needed. In addition, the Corporation is subject to various debt covenants, including limitations on expenses/expenditures, and compliance with Trustee indenture agreement requirements. The Corporation was in compliance with all covenants and indenture agreement requirements at December 31, 2016.
